

# Home Energy Upgrades

## New and increased grants - Spring 2026

### More affordable ways to upgrade your home

**Higher insulation grants** for attic (up to €2,000) and cavity wall (up to €1,800).

**New for first time buyers of 2nd hand homes** an even higher attic insulation grant (up to €2,500).

**Second wall insulation grant** now available for previous applicants.

### New windows and doors grant

**Grants for windows and doors available for those doing upgrades step-by-step** (€800 per door for max. 2 doors and up to €4,000 for windows).\*

\* Available from March. Mandatory building fabric standards apply.

### More supports for energy poor homes

**Homeowners in receipt of specified social welfare benefits** (same eligibility as Warmer Home Scheme) can avail of new higher fixed grants towards attic (up to €2,500) and cavity wall insulation (up to €2,300).

### More affordable and accessible heat pumps

**Higher heat pump system grant** (now up to €12,500).

**Removal of the minimum energy uplift requirement** for complete one stop shop home energy upgrades where heat pump is included.

**New high temperature heat pump pilot scheme.**

### Home Energy Upgrade Benefits

Increased comfort

Real savings

Better environment

Higher home value
