

# Scottish Oil Beetle Hunt!

**Buglife needs your help! Keep a look out for oil beetles this March to June!**

Oil beetles are large, black beetles measuring up to 30mm in length. Three species are found in Scotland: the Black, Violet and Short-necked Oil Beetle. They may be seen in flower-rich grasslands, heathland and coastal areas from March to June.

Please submit records using the iRecord app (with multiple photos if possible), or send in details to [scotland@buglife.org.uk](mailto:scotland@buglife.org.uk). Use the hashtag **#OilBeetleHunt** and let us know what you find on social media!
