

Siemens Rail Automation Appoints New Director Delivery

Siemens Rail Automation UK has announced that Rob Morris is to take the position of Director Delivery with effect from 1 January 2015.

Rob will be joining the company from Balfour Beatty where he was most recently Managing Director and Director of Strategic Development of Major Projects for its power business, which incorporated power systems, engineering construction, energy and waste, and nuclear.

Commenting on the appointment, Siemens Managing Director, Paul Copeland said: "I'm delighted to be welcoming Rob to our executive team. He brings a wealth of major project experience gained both internationally and within the UK, including the civil engineering business operations on the West Coast Mainline Overhead Line Electrification and Watford to Bletchley Alliance projects with Network Rail.

"Although it has taken some time to fill this crucial position, it was important to find the right person for the role. With Rob's delivery, strategic, relationship management, contractual and technical experience, together with his unwavering commitment to safety, he has the perfect range of skills to head up our delivery organisation."

About Siemens

Siemens AG (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 165 years. The company is active in more than 200 countries, focusing on the areas of electrification, automation and digitalisation. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is No. 1 in offshore wind turbine construction, a leading supplier of combined cycle turbines for power generation, a leading provider of power transmission solutions and a pioneer in infrastructure solutions and automation and software solutions for industry. The company is also a leading supplier of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. In fiscal 2013, which ended on September 30, 2013, revenue from continuing operations totalled €75.9 billion and income from continuing operations €4.2 billion. At the end of September 2013, Siemens had around 362,000 employees worldwide on the basis of continuing operations. Further information is available on the Internet at www.siemens.co.uk.
