Siemens Appoints New Director of Technology

Siemens Rail Automation has announced the appointment of Nick Dunne to the position of Director Technology for its UK business. Nick joins the company from Laing O'Rourke where he was Head of Development and Design for the company's UK Infrastructure and Construction business.

Bringing more than 30 years' experience gained across a number of engineering and safety roles, Nick takes responsibility for a broad portfolio, including Standards, Platforms and Portfolio, Research and Development, engineering governance and all aspects of safety.

Nick, brings significant rail projects delivery experience from senior positions at Balfour Beatty Rail Projects and Carillion.

Commenting on the appointment, Siemens Managing Director, Paul Copeland, said: "I'm delighted to welcome Nick to the company and to my executive team. I'm sure that his extensive rail engineering, safety and assurance skills and experience will be a considerable asset to the company in delivering excellence to our clients in these vital aspects of business delivery."

About Siemens

Siemens AG (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 165 years. The company is active in more than 200 countries, focusing on the areas of electrification, automation and digitalisation. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is No. 1 in offshore wind turbine construction, a leading supplier of combined cycle turbines for power generation, a leading provider of power transmission solutions and a pioneer in infrastructure solutions and automation and software solutions for industry. The company is also a leading supplier of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. In fiscal 2013, which ended on September 30, 2013, revenue from continuing operations totalled €75.9 billion and income from continuing operations €4.2 billion. At the end of September 2013, Siemens had around 362,000 employees worldwide on the basis of continuing operations. Further information is available on the Internet at www.siemens.co.uk.
